Reply to Office Action of December 12, 2007

SUMMARY OF INTERVIEW

The courtesy of a personal interview extended to the undersigned on April 14, 2008 is acknowledged with appreciation. During the interview, no exhibits were shown and no demonstrations were conducted. In general, the typographical error in claim 1 was discussed as was the interpretation of “absolute movement” in claim 1 as it relates to the rejection based on U.S. Patent Publication No. 2002/0038334. While no agreement was reached as to the allowability of the claims, the examiner indicated that he had previously interpreted claim 1 as it has now been amended. Moreover, the undersigned discussed the applicant’s understanding of the differences between “absolute movement” and “relative movement.”
